- Management of complications e.g. ledges, blockages, perforations, instrument separation
- Post removal
- Diagnoses of unexplained pain
- Internal/External resorption
- Surgical endodontics
- Dental trauma
- Management of cracked teeth

Why choose Sheetal Naidu?

Expertise: Dr. Naidu brings a wealth of knowledge and expertise in endodontics, having honed her skills through years of specialised training, hands-on and teaching experience.

Cutting-Edge Technology: Committed to providing the highest standard of care, Dr. Naidu utilises digital imaging and treatment using a microscope, ensuring accurate diagnoses and optimal treatment outcomes.

Patient-Centric Approach: Dr. Naidu understands the importance of patient comfort. Her compassionate and personalised approach creates a positive experience, putting patients at ease during their endodontic procedures.

Timely and Collaborative Communication: Expect timely and comprehensive reports on diagnosis and treatment plans, maintaining a collaborative approach to patient care. We invite you to partner with Dr. Sheetal Naidu to ensure your patients receive top-tier endodontic care. Her commitment to excellence and patient satisfaction makes her a valuable addition to your referral network.

Endodontic Referrals

Experience

Sheetal gained her Bachelor in Dental Surgery (BDS) at the University of Manchester in 2000.

Her Vocational year in Maidstone was followed by several years in a busy general practice. Sheetal also found time to complete examinations to gain Membership of the Joint Dental Faculties (MJDF).

In 2016, Sheetal completed a 4-year postgraduate specialist training programme at Guys, Kings & St. Thomas' Hospital, London (GKT) and has been awarded the Masters in Clinical Dentistry (MClin Dent) in Endodontics with Distinction and has been accepted for Membership in Endodontics (MEndo) by the Royal College of Surgeons of Edinburgh. She is registered as a specialist with the GDC.

She continued her work at King's Dental Hospital, teaching postgraduate Endodontic students from 2016 - 2022 and currently cares for patients in several practices in London and Essex, focussing purely on Root Canal Treatments with the use of advanced microscopes and imaging techniques. She is also involved in dental trauma training for DFT's in Oxford.
