

Periodontal Referrals

Woodford Dental Care is pleased to offer the services of Specialist Periodontist Dr Jason Lim BDS(Hons) MJDF MClInDent(Perio) MPerio RCSEd (GDC 211356)

Jason qualified from King's College London Dental Institute with Honours, after which he completed two years of foundation training in general practice and in a hospital surgical role in Portsmouth. Following this he returned to general practice in Essex before starting specialty training. He has completed the full-time specialty training programme in Periodontology at the Eastman Dental Institute, qualifying with Distinction. During this time, he presented his research and clinical cases at several national and international conferences.

Jason is a GDC registered Specialist in Periodontics and, in addition to providing care for his patients in practice, he is also part of the teaching staff at the Eastman Dental Institute in the Unit of Periodontology.

Referral Criteria

Patients requiring comprehensive periodontal care or complex treatment related to their periodontal (and peri-implant) health. This may include patients with the following:

- Periodontal inflammation with associated bone loss
- No or limited response to previous treatment
- Advanced stages of periodontitis and/or rapid progression of disease
- Peri-implant diseases
- Patient's requiring surgical procedures
- Medical history significantly affecting clinical management

Scope of Practice

Comprehensive assessment, report and provision of periodontal treatment:

- Tailored oral hygiene regime
- Non-surgical periodontal therapy
- Periodontal surgeries (pocket reduction, regeneration)
- Periodontal plastic surgeries (frenectomy, gingival augmentation, root coverage, crown lengthening)
- Management of peri-implant diseases
- Supportive periodontal therapy
